❖ **Hazard assessment and vulnerability/ VDMP Assessment****Course programme**

The training/workshop course is based on a series of modules, which can be adapted to the requirements of the course participants. The emphasis is put on practice and hands-on exercises and includes:

- Group-work
- Brainstorming
- Questions and answers
- Role play
- Short presentations

Facilitators will ask questions to make sure that the participants could follow the discussions in the session. If needed, discuss the main points again in brief. To help the facilitators to facilitate the sessions properly with adequate information and clear concept, each session is supported by PowerPoint slides and handouts. Facilitators will read and comprehend these supportive materials. The facilitator will prepare PowerPoint slides, handouts and other materials before starting the training. It is expected that the capacity of the course participants would be enhanced substantially if the training is conducted properly as per course contents.

What is included in the event?

Training facilitation for two days from 09:30AM to 06:00PM, training material including stationery and handouts certificates of training with training group picture, lunch for two days, morning and evening tea during the training days.
